# Report of the Superintendent of Schools

---

## *To the School Board:*

I herewith submit to your consideration my second annual report, which is the fifth in the series of annual reports of Superintendents of the Allenstown Schools.

During the past year an attempt has been made to secure increased efficiency in the work of the pupils, with promising results, except in the grammar room of the village school, where the frequent changes to which I alluded in my last report, have greatly hampered us. At present, through the persistent and conscientious efforts of Miss Shaw, progress is being made in this line. The large number of grades in this room necessarily limits the length of recitations and prohibits individual attention, but I hope to see in the near future, a much higher standard of efficiency and thoroughness.

The number of grades in the grammar room should be decreased. It was impossible to put one of the grades into the lower room this year, on account of the large number of pupils already there. The membership of the primary school has been increased by the attendance of pupils who were merely seeking a knowledge of English, reading and writing, adequate to enable them to get a labor certificate.

In many ways it would seem advisable to open another room and employ a teacher who would care for these special pupils, (and one or two grades which are now in the grammar room.)

This year the study of music was introduced in our village schools. Progress in the study has been necessarily slow, especially in the upper grades, where the wide difference in age and lack of preparation for advanced work were obstacles. The work will be continued, however, and results will soon be apparent.

Substantial improvements were made in the village school building during the summer. The halls were remodelled and new floors were put in. Modern water-closets were installed, replacing the old and unsanitary system formerly in use.

This policy should be continued. A new floor should be laid in the grammar room and adjustable seats and desks furnished. Necessary minor repairs should be made in the extra room upstairs so that this room may be ready for occupancy if needed. The porch and approaches to the building require attention to make them attractive.

Respectfully submitted,

EVERETT T. WHITFORD,

*Superintendent of Schools.*

## Report of School Board.

At a meeting of the School Board, held February 13, 1909, it was voted to accept the report of the Superintendent of Schools, and to adopt it as the report of the Board.
